### **MANAGEMENT DISCUSSION AND ANALYSIS OF THE FINANCIAL STATEMENTS AND OPERATIONAL RESULTS**

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations may be forward looking statements within the meaning of applicable laws and regulations. Actual results may defer materially from those expressed or implied. Important factors, which could make a difference to the Company's operation include economics conditions affecting demand/supply and price conditions in the domestic and overseas markets in which the Company operates, dependence on certain customers, change in Government regulations, and other statutes and incidental factors. The Company assumes no responsibility to publicly amend, modify or revise any forward-looking statements on the basis of any subsequent developments, information and events.

#### **INDUSTRY STRUCTURE AND DEVELOPMENTS**

The telecom industry globally is building high capacity networks, as service providers are setting up new forms of valuable traffic. Wire line is optimized to provide high-speed data applications as against wireless, which has limitations in terms of bandwidth and spectrum, when it comes to high-speed data. The global trend clearly shows that to support high speed broadband networks, and to provide platform for network management services for large firms, and also for new offerings like Triple play, Ethernet leased lines, bandwidth-on-demand etc, new optical transmission networks are required.

India is now one of the fastest growing telecom markets having achieved significant growth in teledensity predominantly in urban & semi urban segments. The New Policy Framework has focused on creating an environment, which enables continued attraction of investment in the sector and allows creation of communication infrastructure by leveraging on technological development.

The key demand drivers for Optical Fibre & Cables in India are - Growth in Broadband usage, aggressive Network expansion through Telecom Companies namely BSNL and MTNL. Government of India has a target of reaching 20 million Broadband subscribers by 2010 by adding 0.5 Million Broadband connections per month from Jan.2008 to Dec.2010. Telecom players are providing value added services requiring high quality network and higher bandwidth. The growing e-commerce market which includes trading in goods and services, financial settlement systems, travel, distribution and electronic processing of bills would also require very high bandwidth to accommodate the large amount of data being transferred for these applications. Plans announced by other major telecom players to offer IPTV services would further fuel up the demand for Optical Fibre Networks. Besides the above, there are good prospects for exports from India, especially to emerging markets.

The Company has signed agreements with Mahanagar Telephone Nigam limited (MTNL), the incumbent telecom service provider in Mumbai & Delhi, to provide value added services such as Voice Over Internet Protocol (VOIP) and Internet Protocol Television (IPTV) on the Broadband Network of MTNL. The services of VOIP have been commercially launched in Delhi and Mumbai and that of IPTV in Delhi.

#### **OPPORTUNITY, THREATS & BUSINESS OUTLOOK**

The Company has carried out R&D in the area whereby the required bandwidth for access network application can be achieved by developing higher fibre count 48F/96F/144F Ribbon cables got approval and supplied to BSNL India.

The Company has developed a new Air Blown Fibre Cables upto 12 Fibre count in 1.6mm to 2.0mm diameter, which can be used in existing micro ducts and supplied huge qty to European Countries. The Company has developed an All Purpose Optical Fibre Cable upto 12F count, having very high tensile strength, high flexibility, low weight & being cost effective, this cable can be installed in all the applications like Aerial, Burial & Duct.

The Company has also developed higher count double layer Optical Fibre Cable & supplied to European Countries.

The increase in FTTH demand is due to customer "pull" tied to the desire for enhanced video, voice and data services, known as triple play. During the period 2007-2012 cabled fibre demand is projected to grow by 9% per year by volume.

IPTV technology is gaining tremendous industry momentum and aggressive deployment among service providers worldwide and in India. According to a study done by ABI Research, total subscribers for IPTV may exceed 120 million by 2010 with Asia Pacific constituting roughly 47 per cent of the total subscribers worldwide. China and India are seen as major markets. With average revenue per user for fixed line telephony service falling every year, telecoms want to provide additional value-added services to their customers. Operators and content providers are coming together to deliver value added services, but the industry is still evolving standards in India. State owned telecoms viz. MTNL and BSNL are the forerunners in IPTV segment.

#### **RISKS AND CONCERNS**

Growth of tele-communication, broadband and networking services in India and abroad has initiated development of new products and technological innovations. Rapidly changing technology may obsolete the current technology. It is crucial to make continuous Research & Development and develop newer technologies to remain competitive and exist in the market. Thus, any failure to keep abreast with the latest trends in the industry may adversely affect the cost competitiveness and the ability of the Company to develop newer technologies.

Any material changes in Import and Export policies of the Government and Exchange Control Regulations would affect the Company's profitability as a major part of its raw materials is imported.

#### **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY.**

The Company has in place adequate system of internal controls commensurate with its size and the nature of its operations. An independent internal audit function is in place which reports periodically to the Audit Committee.

The composition and the competencies of the audit team is reviewed from time to time to assess its effectiveness.

The scope of internal audit extends to all functions and locations of the company. The company has also taken steps to comply with the clause 49 of the Listing Agreement as disclosed in the Corporate Governance Report.

#### **HUMAN RESOURCE DEVELOPMENT**

In the era of globalization and competitiveness and knowledge-based economy, the industrial scenario is changing frequently, which forces the organization to develop its human resources, to achieve its business goals. To sustain in this challenging environment, the management values its human resources as one of its most valuable assets and actuate their talent by providing opportunities to develop themselves. The management firmly believed that business cannot grow without utilizing the potential of its human resources. The management is committed to provide a conducive working environment to its employees, fully utilizing their potential and enhancing their skills through cross-functional exposure, training and development, sharing of information and experiences. The management believes in maintaining cordial and harmonious relations with its employees.

## SCHEDULES FORMING PART OF ACCOUNTS

### SCHEDULE "N"

#### SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

##### 1. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with applicable accounting standards issued by the Institute of Chartered Accountants of India and the relevant requirements of the Companies Act, 1956. Significant accounting policies applied in preparing and presenting these financial Statements are set out below:

###### a) Basis of Accounting

The financial statements are prepared under historical cost convention on accrual basis of Accounting and on a going concern basis.

###### b) Revenue Recognition

- i) Revenue from sale of goods is recognized when all the significant risk and rewards of ownership are transferred to the buyer (usually at the point of dispatch to customers). Sales are inclusive of excise duty and exclusive of sales tax and sales return. Net sales are exclusive of excise duty. Service charges are accounted for on accrual basis.
- ii) Dividend income is recognized when the right to receive payment is established.
- iii) Other Incomes are accrued as earned except where the receipt of income is uncertain.

###### c) Fixed Assets

- i) Fixed Assets are stated at cost of acquisition less accumulated depreciation. Cost includes any borrowing costs directly attributable to the acquisition/ construction of fixed assets and bringing the assets to its working condition for its intended use.
- ii) Exchange difference arising on account of liabilities incurred for acquisition or construction of Fixed Assets is adjusted in the carrying amount of related Fixed Assets.

###### d) Capital Work-in-Progress

Advances paid towards the acquisition of fixed assets, costs of assets not ready for use before the year-end and expenditure during construction period that is directly or indirectly related to construction, including borrowing costs are included under Capital Work-in-Progress.

###### e) Depreciation

- i) Depreciation on Building, Plant and Machinery and other Fixed Assets (except leasehold land and software) is provided as per straight-line method in accordance with the rates specified in Schedule XIV of the Companies Act, 1956. Depreciation is charged on pro-rata basis for assets purchased/ sold during the year. Individual assets costing upto Rs.5, 000/- are depreciated in full in the year of purchase.
- ii) Extra shift depreciation is charged on the basis of actual extra shifts worked as required by Schedule XIV to the Companies Act, 1956.
- iii) Cost of leasehold land is amortized over lease period on a straight-line basis.
- iv) Cost of software is amortised over its useful life on a straight-line basis.

###### f) Impairment

Fixed Assets are tested for impairment if there is any indication of their possible impairment. An impairment loss is recognized where the carrying amount of a fixed asset (or cash generating unit) exceeds its recoverable amount, i.e. higher of value in use and net selling price. Impairment Loss recognized in one period can get reversed fully or partly in a subsequent year.

###### g) Investments

Investments are classified into Long Term Investments and Current Investments. Long Term investments are stated at cost. Provision for diminution in the value of long- term investments is made only if such diminution is other than temporary. Current Investments are carried at the lower of cost and fair value and provisions are made to recognize the decline in the carrying value.

###### h) Inventories

- i) Raw materials, work-in-process, finished goods, trading stock, packing material and stores and spares parts are valued at the lower of cost and net realizable value.

## SCHEDULES FORMING PART OF ACCOUNTS

- ii) Cost of inventories of items that are not ordinarily interchangeable or are meant for specific projects is assigned by specific identification of their individual cost. Cost of other inventories is ascertained on the FIFO basis. In determining the cost of work-in-process and finished goods, fixed production overheads are allocated on the basis of normal capacity of production facilities.
- iii) The comparison of cost and realizable value is made on an item-by-item basis.
- iv) Net realizable value of work-in- process is determined on the basis of selling prices of related finished products.
- v) Raw Material and other supplies held for use in production of inventories are not written down below cost unless their prices have declined and it is estimated that the cost of related finished goods will exceed their net realizable value.

### i) Retirement Benefits

- a) Contribution to Provident Fund, a defined contribution plan, is accounted for on accrual basis. The Company continues to make contributions to provident fund plan administered by the Government of India.
- b) Liability for gratuity, a defined contribution plan, is determined by actuarial valuation carried out by an independent actuary as at the period-end. The liability with regard to gratuity in respect of any employee not covered under group gratuity scheme is provided on the basis of amount payable to such employees as if they were to retire on the last day of financial year.

### j) Foreign Exchange Transactions

Transactions in foreign currency are recorded at the exchange rates prevailing at the dates of the transactions. In case of liabilities incurred for the acquisition of fixed assets, the loss or gain on restatement of liabilities (at the rates prevailing at the year end) is included in the carrying amount of the related fixed assets. In the case of other foreign currency denominated monetary assets and liabilities, the loss or gain arising as above is charged or credited to profit and loss account of the year of restatement / settlement. In the case of forward contracts that relate to operating transactions, difference between forward rates and spot rates on the date of transaction (i.e. forward premium or discount) is recognized as income or expense, as the case may be, over the life of the contract.

### k) Income Tax

Income taxes are computed using the tax effect accounting method where taxes are accrued in the same period, as the related revenue and expenses to which they relate. The differences that result between profit offered for income tax and the profit before tax as per financial statements are identified and deferred tax assets or deferred tax liabilities are recorded for timing differences, namely differences that originate in one accounting period and are capable of reversal in future. Deferred tax assets and liabilities are measured using tax rates and tax laws enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognized only if there is reasonable certainty that they will be realized. However, where the Company has unabsorbed depreciation or carried forward losses under taxation laws, a much stricter test, viz, virtual certainty of realization, is applied for recognition of deferred tax assets. Deferred tax assets are reviewed for the continuing appropriateness of their respective carrying values at each balance sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) of realization.

### l) Miscellaneous Expenditure

- i) Expenditure on issue of shares and foreign currency convertible bonds is adjusted against Securities Premium account.
- ii) Expenditure on issue of debentures and other ancillary costs of borrowings are amortized over the period of the related borrowings.

## 2. Accounting for Amalgamation of Aksh Broadband Limited with the company:

The High Court of Rajasthan, by its order dated 23.02.2007 and The High Court of Delhi, by its order dated 29.05.2007 sanctioned the Scheme of Amalgamation of erstwhile Aksh Broadband Limited ( erstwhile ABL) with the Company i.e. Aksh Optifibre Limited under the provisions of Sections 391 and 394 of the Companies Act,1956 pursuant to which the erstwhile ABL has been amalgamated with the company with effect from April 1, 2006, being the appointed date.
