CORPORATE GOVERNANCE REPORT

CONTINUED DEDICATION TO CORPORATE FAIRNESS, TRANSPERENCY AND ACCOUNTABILITY

Your Company believes in conducting its affairs with the highest levels of integrity, proper authorisations, accountability, disclosure and transparency. The Company strongly believes in maintaining a simple and transparent corporate structure driven solely by business needs. Shareholders' interests are on utmost priority and the management is only a trustee to carry out the activities in a truthful and fruitful manner.

The details of the Corporate Governance compliance by the Company as per the Clause 49 of the Listing Agreement entered into with Stock Exchanges are as under:

1. Company's Philosophy On Corporate Governance

AKSH is committed to attain the highest levels of transparency, accountability and equity in all facets of its operations and in all its interactions with its shareholders, employees, government, lenders and the society at large. The underlying goal of the Company is to enhance its overall enterprise value and retain the trust and faith of all its valuable stakeholders, over a sustainable tenure.

Good Governance is an essential and integral part of corporate success and sustainable economic growth encouraging the efficient use of resources and equally to require accountability for the stewardship of those resources.

In addition to the adherence to its philosophy and values, the Company has also complied with the provisions of Clause 49 of the Listing Agreement of Stock Exchanges, which deals with the compliance of Corporate Governance requirements. A detail, in line with the same is as follows.

2. The Board Of Directors

Composition:

The Company has a very balanced structure of the Board of Directors. As at the end of the current financial year the Board consisted of 8 Directors, with one Promoter Director cum Non- Executive Chairman, 4 Independent Non-Executive Directors, a Whole Time Director and 2 Non-Independent Non-Executive Directors.

During the year, Dr. Kailash S. Choudhari stepped down as Managing Director and was appointed as Non Executive Chairman cum Director of the Company. Mr. Chetan Choudhari was appointed as a Whole Time Director of the Company. Further, Mr. Amrit Nath has been appointed as an Independent Non-Executive Director of the Company.

The Company has been taking effective steps for due compliance of the provisions of Clause 49 of the listing agreement. None of the Directors are holding directorships in more than 15 Public Companies and not a member of more than 10 Committees and the Chairman of more than 5 Committees across all the Companies in which they are Directors. The Non-Executive Directors are appointed or re-appointed with the approval of the shareholders. All Non-Executive Directors are liable to retire by rotation unless otherwise specifically approved by the shareholders.

The Independent Directors on the board are experienced and highly renowned persons from their respective fields. They take active part in the Board and Committee meetings which add value in the decision making process of the Board of Directors.

Board Functioning & Procedure

Aksh believes that at the core of its corporate governance practice is the Board, which oversees how the management serves and protects the long-term interests of all stakeholders of the company. An active, well-informed and independent board is necessary to ensure the highest standards of corporate governance. Aksh believes that composition of board is conducive for making decisions expediently, with the benefit of a variety of perspectives and skills, and in the best interests of the Company as a whole rather than of individual shareholders or interest groups.

In accordance with the provisions of Clause 49 of the Listing Agreement, the Board meets at least once in every quarter to review the quarterly results and other items of agenda as required under Annexure 1A of Clause 49 of Listing Agreement, and if necessary, additional meetings are held. MANAGEMENT DISCUSSION AND ANALYSIS OF THE FINANCIAL STATEMENTS AND OPERATIONAL RESULTS

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations may be forward looking statements within the meaning of applicable laws and regulations. Actual results may differ materially from those expressed or implied.

Industry Structure and Developments

Global Industry Scenario

Research from Point Topic has revealed that broadband subscriptions have driven global IPTV usage to a record level of over 45 million users. The results presented by the Broadband Forum, showed that in all IPTV usage climbed by 34.6% in 2010 out of which in July, 2010 the half billion broadband lines mark was passed. The year ended with 523 million lines, a net addition of over 55 million lines. Matching this impressive growth was a commensurate uplift in IPTV subscribers to 45.4 million, with over 11.5 million new subscribers. The research also revealed that Q4 2010 was the strongest quarter for IPTV growth, with an 8% growth delivering 3.4 million additions.

IPTV subscribers worldwide will reach 109 Mn. by 2014, rising at a compound annual growth rate (CAGR) of about 25% between 2011 to 2014, as telcos look for new revenue streams beyond data and voice services.

With the developed and developing economies opting for FTTH (Fibre-To-The-Home) Technology as a viable broadband option, the Industry is set to grow with the regulators coming forward to foster the State owned telcos to switch to FTTH Technology.

IPTV / VOIP Services Scenario

Emergence of IPTV as a medium for TV viewing has provided consumers with more choice. IPTV services can be delivered by telecom service providers or Internet service providers.

The major benefit of switching to IPTV is to enjoy non – linear TV viewing and with Video on Demand (VoD) or even Time Shifted TV (TSTV), – the next gen way of consuming

video entertainment/edutainment/infotainment at one's own leisure. The user is also allowed to pause, fast forward or reverse at his/her convenience. This type of instant joy is available only through IPTV and this service has benefits for all – from consumers to service providers to content producers.

A jump in bandwidth usage along with fibre - to -home installations has been driving IPTV in India. The growth drivers of IPTV in India are growth in Broadband usage and aggressive Network expansion through Telecom Companies namely BSNL & MTNL.

With the private telecom players also offering DTH & IPTV services, coupled with the demand of FTTH technology, need of high bandwidth by big corporate banks and Insurance Companies for data, audio and video conferencing would further fuel up the demand for IPTV networks.

The key driver of IPTV services is its cost effectiveness both at the time of installation and after sales service, coupled with the ability of the subscriber to optimally use the internet. Faster growth in IPTV is mostly driven by proliferation of Triple Play, improved DSL / fibre broadband capacity, accelerated install time, continued improvement in QoS / QoE and additional HD content. The Telco TV upgrades, all based on globally standardized IP protocol technology, are continually improving while costs are dropping or remaining stable, allowing further investments.

IPTV has started to gain a foothold in several small or emerging markets and has begun to win customers, albeit at a slow pace. It is reported that amongst all the IPTV markets, Asia –Pacific region is slated to be the second largest IPTV Market in the world. It is also reported that in the next 4 years IPTV would grow at a CAGR of 26%.

VoIP (Voice over Internet Protocol) or Internet telephony is a low cost voice communication technology, using prevailing internet protocol. The Company has launched its VoIP services by the brand name 'Pigeon' in collaboration with MTNL, using the existing broadband network of MTNL in the cities of Delhi & Mumbai.

SWOT Analysis

Strength

- ◆ Professionally managed and experienced Management Team.
- ◆ Technologically advanced set up, with hoards of value added services in the offering.
- ◆ Offering Time shift TV, to enable households to shift their view time for their preferred programming.
- ◆ Collection of quality content, with an ability to provide the optimum mix of premium and local content

Opportunities

- ◆ Roll out of 3G services with broadband and triple play services set to grow strong opportunity for infrastructure solutions. 3G will address a huge pent-up demand for high-bandwidth data exchange and internet access.
- ◆ TRAI's recommendation for phase-wise migration of all analog cable TV systems to digital platform by 2013.
- ◆ Proposed roll out plans for national optical fibre cable network acting as backbone to broadband services across the country
- ◆ Growth in the Indian entertainment industry with a spurt of new technologies, larger pay-TV audience and digitization
- ◆ Growth of FTTH Technology

Weakness

- ◆ Full dependence on Govt. Telcos
- ◆ Highly capital intensive business
- ◆ Long gestation period

Threats

- ◆ IPTV is sensitive to packet loss and delays if the streamed data is unreliable.
- ◆ Other form of Digital TVs, like DTH and cable.
- ◆ Loyalty of cable customers marginalized, but yet to be diminished. Low awareness amongst the masses.

Risk Management Framework

The Company has a Risk Management framework in place, which comprises the identification of potential risk areas, evaluation of intensity, mitigation plans and procedures for the risk management and policies formulated both at the enterprise and at the Operating level. The framework seeks to facilitate building a common understanding of the exposure to the various risks and uncertainties at an early stage, for timely response and their effective mitigation.

Internal Control

The Company has adequate internal control procedures commensurate with the size and nature of its business. These business control procedures ensure efficient use and protection of the resources and also compliance with the policies, procedures and statutory requirements. The internal control systems provide for well documented guidelines, authorization and approval procedures. The Company also carries out internal audit through an external agency. The prime objective of such audit is to test the adequacy and effectiveness of all internal controls laid down by the management and to suggest improvements.

Human Resources

The good performance of the Company requires a disciplined, focused work culture and demands an ongoing effort to sustain an engaged workforce. To sustain in this challenging environment, the management values its human resources as one of its most valuable assets and actuate their talent by providing opportunities to develop themselves. The management believes that business cannot grow without utilizing the potential of its human resources. The management is committed to provide a conducive working environment to its employees, fully

utilizing their potential and enhancing their skills through cross-functional exposure, training and development, sharing of information and experiences. The management believes in maintaining cordial and harmonious relations with its employees. The Company works with a Key Responsibility Area based review and recognition strategy that aligns efforts, while rewarding results. The Company employed a total of 125 employees as on 31st March, 2011 spread over all its offices.

Financial Performance

The financial performance of the Company has been given separately in the Directors' Report.

Future Outlook

IPTV represents an opportunity for telecommunication companies looking for new revenue streams beyond data and voice services. With the necessary broadband infrastructure in place there are many opportunities for growth. As more and more consumers are switching to fiber for their broadband, it is projected that the numbers of IPTV subscribers will climb in markets, where FTTH deployment is powering ahead.

Your Company would continue to aggressively pursue its IPTV business to attract new subscribers thereby boost revenues. The Company has started its FTTH deployment and it would follow it up more vigorously with new value-added services in its IPTV bouquet, while keeping low cost and extending exemplary services to the subscribers of IPTV.

India is moving towards becoming a top IPTV market and Aksh is making inroads to turn those aspirations into reality. We aspire to build an i-control IPTV base that will change the way most of India utilizes television in their daily lives.

SCHEDULE FORMING PART OF ACCOUNTS**SCHEDULE "L"****NOTES TO ACCOUNTS AS AT MARCH 31, 2011.****1. SIGNIFICANT ACCOUNTING POLICIES****a) Basis of preparation of Financial Statements**

The financial statements have been prepared to comply in all material respects with the notified Accounting Standards by Companies Accounting Standard Rules 2006 (as amended) and the relevant requirements of the Companies Act, 1956. The financial statements have been prepared under historical cost convention on an accrual basis of accounting except in case of assets for which impairment is carried out. The accounting policies have been consistently applied by the company.

b) Use of Estimates

The preparation of the financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting year. Difference between the actual result and estimates are recognized in the year in which the results are known/materialized.

c) Fixed Assets

- i) Fixed Assets are stated at cost of acquisition less accumulated depreciation and impairment. Cost includes any borrowing costs directly attributable to the acquisition/ construction of fixed assets and bringing the assets to its working condition for its intended use.
- ii) Exchange difference arising on account of liabilities incurred for acquisition or construction of Fixed Assets is adjusted in the carrying amount of related Fixed Assets.

d) Capital Work-in-Progress

Advances paid towards the acquisition of fixed assets, costs of assets not ready for use before the year-end and expenditure during construction period that is directly or indirectly related to construction, including borrowing costs are included under Capital Work-in-Progress.

e) Depreciation

- i) Depreciation on Fixed Assets is provided on straight-line method at the rates specified in schedule XIV of the Companies Act, 1956. Depreciation is charged on pro-rata basis for assets purchased/ sold during the year. Individual assets costing up to Rs. 5,000/- are depreciated in full in the year of purchase.

Depreciation on equipments installed at customer premises is being provided at 20% on useful life estimated by the management.

Licence fee is amortised over the licenced period.

- ii) Cost of leasehold land is amortized over lease period on a straight-line basis.
- iii) Cost of software is amortised over its useful life on a straight-line basis.

f) Impairment of Assets

- i) The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted at their present value at the weighted average cost of capital.
- ii) After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.
- iii) A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

g) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Long Term investments are stated at cost. Provision for diminution in the value of long- term investments is made only if such diminution is other than temporary. Current Investments are carried at the lower of cost and fair value and provisions are made to recognize the decline in the carrying value.

SCHEDULE FORMING PART OF ACCOUNTS

h) Inventories

Raw materials, work-in-process, finished goods, trading stock, packing material and stores and spares parts are valued at the lower of cost and net realizable value except scrap which is valued at net realizable value.

Cost of inventories of items that are not ordinarily interchangeable or are meant for specific projects is assigned by specific identification of their individual cost. Cost of other inventories is ascertained on the FIFO basis. In determining the cost of work-in-process and finished goods, fixed production overheads are allocated on the basis of normal capacity of production facilities.

The comparison of cost and realizable value is made on an item-by-item basis.

Net realizable value of work-in-process is determined on the basis of selling prices of related finished products.

i) Foreign Currency Transactions

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of transaction.

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expense in the year in which they arise.

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit & loss in the year in which exchange rate changes. Any profit or loss arising on cancellation or renewal of forward exchange contracts is recognized as income or expense for the year. None of the forward exchange contracts are taken for trading for speculation purpose.

j) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that company incurs in connection with the borrowing of funds.

k) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be readily measured.

Sales of Goods and Services

Revenue is recognized when the significant risks and rewards of ownership of the goods have been passed to the buyer (usually at the point of dispatch to customers). Sales include excise duty, sale of scrap and net of sale tax and quantity discount.

Income from services is recognized on the completion of services. Period based services are accounted for proportionately over the period of service.

Income from Interest

Revenue is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Other Incomes

Other Incomes are accrued as earned except where the receipt of income is uncertain.

l) Retirement and other Employee Benefits

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on Projected Unit Credit Method calculated at the end of each financial year. The liability with regard to gratuity in respect of any employee not covered under group gratuity scheme is provided on the basis of amount payable to such employees as if they were to retire on the last day of financial year.

Leave Encashment liability is provided for based on actuarial valuation done as per Projected Unit Credit Method calculated at the end of each financial year.

Actuarial gains/losses are immediately taken to profit and loss account and are not deferred.

SCHEDULE FORMING PART OF ACCOUNTS
m) Taxes on Income

Income taxes are computed using the tax effect accounting method where taxes are accrued in the same period, as the related revenue and expenses to which they relate. The differences that result between profit offered for income tax and the profit before tax as per financial statements are identified and deferred tax assets or deferred tax liabilities are recorded for timing differences, namely differences that originate in one accounting period and are capable of reversal in future. Deferred tax assets and liabilities are measured using tax rates and tax laws enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognized only if there is reasonable certainty that they will be realized. However, where the Company has unabsorbed depreciation or carried forward losses under taxation laws, a much stricter test, viz, virtual certainty of realization, is applied for recognition of deferred tax assets. Deferred tax assets are reviewed for the continuing appropriateness of their respective carrying values at each balance sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) of realisation.

n) Operating Leases

Assets given on operating leases are included in fixed assets. Lease income is recognised in the Profit and Loss Account on a straight-line basis over the lease term. Costs, including depreciation are recognised as an expense in the Profit and Loss Account. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the Profit and Loss Account.

o) Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Notified AS 20 under the Companies (Accounting Standards) Rules, 2006 (as amended) issued by The Institute of Chartered Accountants of India on 'Earnings Per Share'. Basic earnings per share is computed by dividing the net profit or loss for the period attributable to equity shareholders after deducting attributable taxes by the weighted average number of equity shares outstanding during the period. Diluted earnings per share are computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Both profit for the year and weighted average numbers of shares are adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

p) Provisions, Contingent Liabilities and Contingent Assets

As per Notified AS 29 under the Companies (Accounting Standards) Rules, 2006 (as amended), Provisions, Contingent Liabilities and Contingent Assets, issued by the Institute of Chartered Accountants of India, the Company recognizes provisions (without discounting to its present value) only when it has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation as and when a reliable estimate of the amount of the obligation can be made.

No provision is recognized for –

Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company;

or

Any present obligation that arises from past events but is not recognized because –

- It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- A reliable estimate of the amount of obligation cannot be made.

Such obligations are disclosed as Contingent Liabilities. These are assessed continually and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for, except in the extremely rare circumstances where no reliable estimate can be made.

q) Miscellaneous Expenditure

Expenditure on issue of shares / foreign currency convertible bonds (FCCBs) / Global Depository Receipts (GDRs) / shares under Qualified Institutional Placements (QIP) and premium on redemption of FCCBs are adjusted against Securities Premium account.

2. Contingent Liabilities not provided for:

Aksh Optifibre Limited

Consolidated Financial Statements

AUDITOR'S REPORT

The Board of Directors,
Aksh Optifibre Limited

1. We have audited the attached Consolidated Balance Sheet of Aksh Optifibre Limited ('the Company') and its subsidiaries (collectively referred as 'Aksh Group') as at March 31, 2011 and the Consolidated Profit and Loss Account and the Consolidated Cash Flow statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management and have been prepared by the management on the basis of separate financial statements and other financial information regarding components. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standard generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amount and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We report that the consolidated financial statements have been prepared by the Company's management in accordance with the requirements of the Accounting Standards (AS) 21, Consolidated Financial Statements issued by the Institute of Chartered Accountants of India.
4. We have not conducted audit of foreign subsidiary, whose financial statements reflect total assets of Rs 11,048.89 lacs as at March 31, 2011 and the total revenues of Rs.2,894.42 lacs for the year ended . These financial statements and other financial information have been audited by other auditor whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included in respect of the subsidiary is based solely on the report of the other auditor.
5. *Attention is invited to the under mentioned notes of Schedule M regarding AP Aksh Broadband Limited a subsidiary company:*
 - a *Note 18 regarding BG revoked of Rs. 150 lacs by M/s Andhra Pradesh Technology Services Limited and provision for various expense e.g. rent, bandwidth expenses etc, due to non availability of information and accumulated interest of Rs. 119.17 lacs on secured loan taken form Cisco Systems Capital India Private Limited*

SCHEDULE FORMING PART OF CONSOLIDATED ACCOUNTS
SCHEDULE "M"
NOTES TO THE CONSOLIDATED ACCOUNTS AS AT MARCH 31, 2011.
1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The significant accounting policies adopted by Aksh Optifibre Limited (the Company) and its subsidiaries (hereinafter referred to as the "Group") in respect of these Consolidated Financial Statements, are set out below.

a) Basis of preparation of Financial Statements

These consolidated financial statements have been prepared to comply in all material respects with the generally accepted accounting principles in India including the notified Accounting Standards by Companies Accounting Standard Rules 2006 (as amended) and relevant requirements of the Companies Act, 1956 to reflect the financial position and the results of operations of the Group. These consolidated financial statements are prepared under the historical cost convention on the accrual basis of accounting and in accordance with the reporting requirements of Accounting Standard - 21 'Consolidated Financial Statements' issued by the ICAI.

b) Principles of Consolidation

These accounts represent consolidated accounts of the Group and its majority owned subsidiaries as follows:

Entity	Country of Incorporation	Shareholding as at March 31, 2011
APAKSH Broadband Limited (AP AKSH)	India	99.92%
Aksh Technologies Limited (ATL)	India	100%
AOL FZE	UAE	100%

c) Use of Estimates

The preparation of the financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting year. Difference between the actual result and estimates are recognized in the year in which the results are known/materialized.

d) Fixed Assets

- i) Fixed Assets are stated at cost of acquisition less accumulated depreciation and impairment. Cost includes any borrowing costs directly attributable to the acquisition/ construction of fixed assets and bringing the assets to its working condition for its intended use.
- ii) Exchange difference arising on account of liabilities incurred for acquisition or construction of Fixed Assets is adjusted in the carrying amount of related Fixed Assets.

e) Capital Work-in-Progress

Advances paid towards the acquisition of fixed assets, costs of assets not ready for use before the year-end and expenditure during construction period that is directly or indirectly related to construction, including borrowing costs are included under Capital Work-in-Progress.

f) Depreciation

- i) Depreciation on Fixed Assets is provided on straight-line method at the rates specified in schedule XIV of the Companies Act, 1956. Depreciation is charged on pro-rata basis for assets purchased/ sold during the year. Individual assets costing up to Rs.5,000/- are depreciated in full in the year of purchase.

Depreciation on equipments installed at customer premises is being provided at 20% on useful life estimated by the management.

License fee is amortised over the licensed period.

- ii) Cost of leasehold land is amortized over lease period on a straight-line basis.
- iii) Cost of software is amortised over its useful life on a straight-line basis.

g) Impairment of Assets

- i) The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and

SCHEDULE FORMING PART OF CONSOLIDATED ACCOUNTS

value in use. In assessing value in use, the estimated future cash flows are discounted at their present value at the weighted average cost of capital.

- ii) After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.
- iii) A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

h) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Long Term investments are stated at cost. Provision for diminution in the value of long- term investments is made only if such diminution is other than temporary. Current Investments are carried at the lower of cost and fair value and provisions are made to recognize the decline in the carrying value.

i) Inventories

Raw materials, work-in-process, finished goods, trading stock, packing material and stores and spares parts are valued at the lower of cost and net realizable value except scrap which is valued at net realizable value.

Cost of inventories of items that are not ordinarily interchangeable or are meant for specific projects is assigned by specific identification of their individual cost. Cost of other inventories is ascertained on the FIFO basis. In determining the cost of work-in-process and finished goods, fixed production overheads are allocated on the basis of normal capacity of production facilities.

The comparison of cost and realizable value is made on an item-by-item basis.

Net realizable value of work-in- process is determined on the basis of selling prices of related finished products.

Raw Material and other supplies held for use in production of inventories are not written down below cost unless their prices have declined and it is estimated that cost of related finished goods will exceed their net realizable value.

j) Foreign Currency Transactions

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of transaction.

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expense in the year in which they arise.

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit & loss in the year in which exchange rate changes. Any profit or loss arising on cancellation or renewal of forward exchange contracts is recognized as income or expense for the year. None of the forward exchange contracts are taken for trading for speculation purpose.

k) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that company incurs in connection with the borrowing of funds.

l) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be readily measured.

Sales of Goods and Services

Revenue is recognized when the significant risks and rewards of ownership of the goods have been passed to the buyer (usually at the point of dispatch to customers). Sales include excise duty, sale of scrap and net of sale tax and quantity discount.

SCHEDULE FORMING PART OF CONSOLIDATED ACCOUNTS

Income from services is recognized on the completion of services. Period based services are accounted for proportionately over the period of service.

Income from Interest

Revenue is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Other Incomes

Other Incomes are accrued as earned except where the receipt of income is uncertain.

m) Retirement and other Employee Benefits

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on Projected Unit Credit Method calculated at the end of each financial year. The liability with regard to gratuity in respect of any employee not covered under group gratuity scheme is provided on the basis of amount payable to such employees as if they were to retire on the last day of financial year.

Leave encashment liability is provided for based on actuarial valuation done as per Projected Unit Credit Method calculated at the end of each financial year.

Actuarial gains/losses are immediately taken to profit and loss account and are not deferred.

n) Export Incentives

Export Incentive in the form of advance licenses / credit earned under duty entitlement pass book scheme are treated as income in the year of export at the estimated realisable value / actual credit earned on exports made during the year.

o) Taxes on Income

Income taxes are computed using the tax effect accounting method where taxes are accrued in the same period, as the related revenue and expenses to which they relate. The differences that result between profit offered for income tax and the profit before tax as per financial statements are identified and deferred tax assets or deferred tax liabilities are recorded for timing differences, namely differences that originate in one accounting period and are capable of reversal in future. Deferred tax assets and liabilities are measured using tax rates and tax laws enacted or substantively enacted by the balance sheet date.

Deferred tax assets are recognized only if there is reasonable certainty that they will be realized. However, where the Company has unabsorbed depreciation or carried forward losses under taxation laws, a much stricter test, viz, virtual certainty of realization, is applied for recognition of deferred tax assets. Deferred tax assets are reviewed for the continuing appropriateness of their respective carrying values at each balance sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) of realisation.

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternative Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

p) Earnings Per Share

The Group reports basic and diluted earnings per share in accordance with Notified AS 20 under the Companies (Accounting Standards) Rules, 2006 issued by The Institute of Chartered Accountants of India on 'Earnings Per Share'. Basic earnings per share is computed by dividing the net profit or loss for the period attributable to equity shareholders after deducting attributable taxes by the weighted average number of equity shares outstanding during the period. Diluted earnings per share are computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Both profit for the year and weighted average numbers of shares are adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

q) Provisions, Contingent Liabilities and Contingent Assets

As per Notified AS 29 under the Companies (Accounting Standards) Rules, 2006, Provisions, Contingent Liabilities and Contingent Assets, issued by the Institute of Chartered Accountants of India, the Company recognizes provisions (without discounting to its present value) only when it has a present obligation as a result of a past event, it is

SCHEDULE FORMING PART OF CONSOLIDATED ACCOUNTS

probable that an outflow of resources embodying economic benefits will be required to settle the obligation as and when a reliable estimate of the amount of the obligation can be made.

No provision is recognized for –

Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company;

or

Any present obligation that arises from past events but is not recognized because –

- It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- A reliable estimate of the amount of obligation cannot be made.

Such obligations are disclosed as Contingent Liabilities. These are assessed continually and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for, except in the extremely rare circumstances where no reliable estimate can be made.

r) **Project Development Expenditure**

Expenses incurred relating to project prior to commencement of commercial production / start of the project is classified as Project Development Expenditure net of income earned during the project development stage.

s) **Miscellaneous Expenditure**

Expenditure on issue of shares / foreign currency convertible bonds (FCCBs) / Global Depository Receipts (GDRs) / shares under Qualified Institutional Placements (QIP) and premium on redemption of FCCBs are adjusted against Securities Premium account.

t) **Translation of Foreign Subsidiary**

In case of foreign subsidiary, the revenue and expense transactions at the year end reflected in the Profit & Loss account have been translated at the average exchange rates for the period to which the financial statements relate.

The assets & liabilities, both monetary and non-monetary, have been translated at the closing exchange rate prevailing on the date of the Balance Sheet.

Exchange difference arising on the company's net investment in foreign subsidiary are accumulated in a foreign currency translation reserve until the disposal of such investment, at which time they are recognized as income & expense.

2. **Contingent Liabilities not provided for:**
