

Independent Auditors' Report

To the Members of Aksh Composites Private Limited

Report on the Financial statements

Opinion

We have audited the accompanying Ind AS financial statements of **Aksh Composites Private Limited** (the 'Company'), which comprise the Balance Sheet as at 31 March 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 (the 'Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2021, and its loss (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statement in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Material Uncertainty Related to Going Concern

With reference to Note No 43 which indicates that the company has accumulated losses exceeding the share capital and reserves and its Net worth has been fully eroded. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the company's ability to continue as a going concern. However the financial statements of the Company have been prepared on a going concern basis for the reasons stated in the said Note.

Our opinion is not modified in respect of this matter.

Emphasis of Matter

We draw your attention to;

- a) Note 44 to the financial statement regarding, balance confirmations of Trade receivable / Trade payable and other payable / Advances paid / Advances received. The Company has sent e-mail to parties with request to confirm their balances out of which only few of parties have responded and accordingly the balances of those parties for which confirmation have not been received are subject to confirmation. The management does not expect any significant impact arise on account of it.

- b) Note 45 to financial statement regarding the non-settlement of foreign currency payable as at 31st March 2021 amounting to Rs 479.38 lakhs outstanding for a period of more than twelve months (as period extended to twelve month in case of shipment up to 30th June 20) from the date of import, being the time permitted under the RBI Master Direction on Import of Goods and Services vide FED Master Direction No 17/2016-17 dated 01st January 2016 (as amended) issued by Reserve Bank of India. The Company is in the process to file an application with Authorized Dealer seeking permission for extension of period for settlement of payable.
- c) Note 46 to financial statement regarding the export receivable of Rs.43.82 lakhs which are outstanding for a period of more than 15 months (as such period extended to fifteen months for export sale up to 30th June, 2020) from the date of Invoice, being the time permitted under Foreign Exchange Management Act (FEMA), or such extended time as permitted by Reserve Bank of India (RBI). The Company is in the process to file an application with RBI for extension of period for realisation of unrealised export proceeds within the prescribed time.
- d) Note 47 to the financial statements, which explains the uncertainties and the management's assessment of the financial impact related to COVID-19 pandemic situation, for which a definitive assessment of the impact in subsequent period is highly dependent on future economic developments and circumstances as they evolve.

Our opinion is not modified in respect of these matters.

Other Information - Board of Directors' Report

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for explaining our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Ind AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. With respect to the matter to be included in the Auditor's Report under section 197(16):

In our opinion and to the best of our information and according to the explanations given to us, no remuneration has paid by the Company to its directors during the year.

2. As required by the Companies (Auditor's Report) Order, 2016 (the 'Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order.

3. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of written representations received from the directors as on 31 March, 2021, taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2021, from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to financial statement of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**".
- (g) With respect to the other matters included in the Auditor's Report and to our best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position;
 - ii. The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses.

- iii. There were no amounts which required to be transferred to the Investor Education and Protection Fund by the Company; and
- iv. The reporting on disclosure relating to Specified Bank Notes is not applicable to the Company for the year ended 31 March, 2021.

Annexure A to the Independent Auditors' Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Member of Aksh Composites Private Limited of even date)

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- i. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - (b) According to the Information and explanation given to us, fixed assets have been physically verified by the management during the year. To the best of our knowledge, no discrepancies have been noticed on such verification. In our opinion, periodicity of physical verification of fixed assets is reasonable.
 - (c) Since the company does not have any immovable property, this clause is not applicable.
- ii. According to the information and explanation given to us, physical verification of inventory has been conducted at reasonable intervals by the management. The discrepancies noticed on verification between the physical stocks and the books records were not material and have been properly dealt with books of accounts.
- iii. According to the Information and explanation given to us, the Company has not granted any loans, secured or unsecured to companies, firms or other parties covered in the register maintained under section 189 Companies Act 2013. Accordingly, Clauses (a), (b) and (c) of sub Para iii of paragraph 3 of the order are not applicable.
- iv. According to the information & Explanation given to us, the company has not given any loans and guarantees, to partiers covered under section 185 and 186 of the Companies Act, 2013.
- v. In our opinion and according to the information and explanations given to us, the company has not accepted any deposits from public to which the directives issued by Reserve Bank of India and provisions of sections 73 to 76 of the Companies Act, 2013, including rules framed there under, apply. Further, no order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any other tribunal.
- vi. To the best of our knowledge and as explained to us, the Central Government has not prescribed maintenance of cost records under clause of sub section (1) of section 148 of the Companies Act, 2013 for the products of the company.
- vii. (a) According to the information and explanation given to us and according to the books and records produced before us, the Company is regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, goods & service tax, value added tax, cess and any other statutory dues with the appropriate authority, as applicable to it.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees state insurance, income tax, goods & service tax, cess were in arrears, as at 31 March, 2021 for a period of more than six months from the date they become payable.

- (b) According to the books and records produced before us, there are no dues of income tax or sales tax or service tax or goods & service tax, value added tax or cess which have not been deposited on account of any dispute.
- viii. In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to a financial institution, bank, Government or debenture holders.
- ix. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, paragraph 3(ix) of the Order is not applicable.
- x. Based on our audit procedures and on the basis of the information and explanations given to us, no material fraud by the Company or by its officer or employees has been noticed or reported during the course of our audit.
- xi. According to the information and explanation given to us, the company has not given any managerial remuneration to the director.
- xii. Based on our audit procedure and according to the information and explanation given to us, The company is a not a Nidhi Company. Hence clause (xii) of Companies (Auditor's Report) Order, 2016 is not applicable to the Company.
- xiii. Based on our audit procedure and according to the information and explanation given to us, all transaction with the related parties are in compliance with section 177 & section 188 of Companies Act, 2013 and details of the same is disclosed in the Ind AS financial statement as required by the applicable Indian Accounting Standards.
- xiv. Based on our audit procedures and on the basis of the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under Audit.
- xv. According to the information and explanation given to us, the company has not entered into any-non cash transaction with directors or persons under the provisions of section 192 of Companies Act-2013. Accordingly, paragraph 3(xv) of the Order is not applicable.
- xvi. According to the information and explanation given to us, the company is not required to be registered under Section-451A of the Reserve Bank of India Act 1934.

"Annexure B" to the Independent Auditor's Report

(Referred to in paragraph 3 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Member of Aksh Composites Private Limited of even date)

Report on the Internal Financial Controls with reference to financial statements under clause (i) of Sub-section 3 of section 143 of Companies Act, 2013

We have audited the internal financial controls with reference to financial statements of Aksh Composites Private Limited ("the Company") as of 31 March, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to financial statements of the Company.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies

and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March, 2021, based on internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

1. Corporate information

Aksh Composites Private Limited is a private Company domiciled in India and incorporated under the provisions of the Companies Act, 2013. The registered office of the Company is located at 222 Creative Industrial Estate, N.M.Joshi Marg, Mumbai, Mumbai City, Maharashtra, India, 400011.

The Company is engaged in the manufacturing of Fibre Reinforced Plastic Rods and Impregnated Glass Roving Reinforcement. The Company caters to both domestic and international markets.

The Company's financial statements are approved for issue by the Company's Board of Directors on 09th June 2021.

2. Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs pursuant to section 133 of Companies Act, 2013 (Act) read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provision of the Act.

The accounting policies are applied consistently to all the periods presented in the financial statements.

The financial statements have been prepared on a historical cost convention, except for certain financial assets and financial liabilities (including derivative instruments) that are measured at fair value as required under relevant Ind AS.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest lakhs, except otherwise stated.

2.1 Summary of significant accounting policies

2.1.1 Current v/s non-current Classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is classified as current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- Expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.1.2 Foreign currencies

The Company's financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency. Functional currency is the currency of the primary economic environment in which an entity operates and is normally the currency in which the entity primarily generates and expends cash.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

2.1.3 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received from sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell an asset or transfer the liability takes place either:

- In the principal market for the asset or liability
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Level 1 hierarchy includes financial instruments measured using quoted prices, for example listed equity instruments, traded bonds and mutual funds that have quoted prices.
- Level 2 — The fair value of financial instruments that are not traded in an active market is determined using valuation techniques that maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable the instrument is included in level 2

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

- Level 3 — If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.1.4 Revenue recognition

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. The Performance Obligations in our contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.

Revenue from the sale of goods is measured on the basis of contracted price net of returns, liquidation damage, trade discount & volume rebates and any taxes or duties collected on behalf of the Government such as goods and services tax, etc.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment.

Revenue from a contract to provide services is recognised based on terms of agreements/arrangements with the customers as the service is performed and there are no unfulfilled performance obligations.

2.1.5 Inventories

Inventories are valued at the lower of cost or net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials, work-in-process, finished goods, trading stock, packing material and stores and spares parts are valued at the lower of cost and net realizable value except scrap which is valued at net realizable value.
- Cost of inventories of items that are not ordinarily interchangeable or are meant for specific projects is assigned by specific identification of their individual cost. Cost of other inventories is ascertained on the Weighted average basis. In determining the cost of work-in-process and finished goods, fixed production overheads are allocated on the basis of normal capacity of production facilities.
- The comparison of cost and realizable value is made on an item-by-item basis.
- Net realizable value of work-in- process is determined on the basis of selling prices of related finished products.
- Raw Material and other supplies held for use in production of inventories are not written down below cost unless their prices have declined and it is estimated that the cost of related finished goods will exceed their net realizable value.

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

2.1.6 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that company incurs in connection with the borrowing of funds.

2.1.7 Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss [either in other comprehensive income (OCI) or in equity]. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses if any. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted as at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss i.e., either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

2.1.8 Property, plant and equipment

On transition to Ind AS, the Company has adopted optional exception under Ind AS 101 to measure property, plant and equipment at fair value. Consequently, the carrying value has been assumed to be cost of Property, plant and equipment on the date of transition. Subsequently Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any.

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Cost includes expenditure that is directly attributable to the acquisition of the asset.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss within other income or other expense.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each reporting date and adjusted prospectively, if appropriate.

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item of property, plant and equipment, if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably with the carrying amount of the replaced part getting derecognised. The cost for day-to-day servicing of property, plant and equipment are recognised in Statement of Profit and Loss as and when incurred.

Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful lives of the assets as defined in the Scheduled II of Companies act, 2013..

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss on the date of disposal or retirement.

2.1.9 Lease

The Company has adopted Ind AS 116-Leases effective 1st April, 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognised on the date of initial application (1st April, 2019). Accordingly, previous period information has not been restated.

The Company's lease asset classes primarily consist of leases for Buildings. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

(iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) on commencement of lease and leases of low value assets. For these short term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or incremental borrowing rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

2.1.10 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

The expense relating to a provision is presented in the Statement of Profit and Loss, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. The unwinding of discount is recognised in the Statement of Profit and Loss as a finance cost.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

2.1.11 Employee benefits

Short term employee benefits

All employee benefits expected to be settled wholly within twelve months of rendering the service are classified as short-term employee benefits. When an employee has rendered service to the Company during an accounting period, the Company recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service as an expense unless another Ind AS requires or permits the inclusion of the benefits in the cost of an asset. Benefits such as salaries, wages and short-term compensated absences and bonus etc. are recognised in Statement of Profit and Loss in the period in which the employee renders the related service.

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions to a statutory authority and will have no legal or constructive obligation to pay further amounts.

The Company's contributions towards pension fund are deposited with the Regional Provident Fund Commissioner. Pension fund is considered to be a defined contribution plan and the Company's contribution paid/payable under the scheme is recognised as an expense in the period in which the employee renders the related service.

Defined benefit plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. Company's gratuity plan is a defined benefit obligation and the Company's liability is determined based on actuarial valuation (using the Projected Unit Credit method) at the end of each year. The Company funds the benefit through contributions to Insurance Companies.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Other long term benefits: Compensated Absences

Compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Company's liability is determined based on actuarial valuation (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

2.1.12 Impairment

(i) Financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are debt instruments and are initially measured at fair value with subsequent measurement at amortised cost e.g., trade and other receivables, unbilled revenue, security deposits, etc.

The Company follows 'simplified approach' for recognition of impairment loss allowance for trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, twelve month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in the subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on a twelve month ECL.

(ii) Non- financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use or its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

The Company's corporate assets do not generate separate cash inflows. If there is an indication that a corporate asset may be impaired, then the recoverable amount is determined for the CGU to which the corporate asset belongs.

An impairment loss is recognized, if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount and are recognised in Statement of Profit and Loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of goodwill, if any, allocated to the units and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

2.1.13 Derivative financial instrument

The Company uses derivative financial instruments i.e., forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss. The Company has not applied hedge accounting.

2.1.14 Share capital

Ordinary shares are classified as equity. Incremental costs, if any, directly attributable to the issue of ordinary shares, if any, are recognised as a deduction from equity, net of any tax effects.

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

2.1.15 Cash and cash equivalents

Cash and short-term deposits in the Balance Sheet and Cash Flow Statement comprise cash in hand, cash at banks and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.1.16 Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year/ period attributable to the shareholders of the Company by the weighted average number of equity shares outstanding as at the end of reporting period.

Diluted EPS amounts are calculated by dividing the profit attributable to the shareholders of the Company (after adjusting the corresponding income/ charge for dilutive potential equity shares, if any) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

2.1.17 Contingencies

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

2.1.18 Dividends

Dividends on equity shares are recorded as a liability on the date of approval by the shareholders.

2.1.19 Export incentive

Export Incentive / credit earned under duty entitlement pass book scheme are treated as income in the year of export at the estimated realizable value / actual credit earned on exports made during the year.

2.1.20 Recent accounting pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet Items:

- i. Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- ii. Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- iii. Specified format for disclosure of shareholding of promoters.
- iv. Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress.

Aksh Composites Private Limited

Notes to financial statements for the year ended March 31, 2021

- v. If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- vi. Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of Profit & Loss related Items:

- i. Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of the financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

Notes:

(i) The Company has adopted Ind AS 116 effective 1st April, 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognised on the date of initial application (1st April, 2019). Accordingly, previous period information has not been restated.

This has resulted in recognising a right-of-use asset of Rs 250.05 lakhs and a corresponding lease liability of Rs 276.57 lakhs. The difference of Rs 19.62 lakhs (net of deferred tax asset created of Rs 6.90 lakhs) has been adjusted to retained earnings as at 1st April 2019.

In the statement of profit and loss for the current year, operating lease expenses which were recognised as other expenses in previous periods is now recognised as depreciation expense for the right-of-use asset and finance cost for interest accrued on lease liability. The adoption of this standard did not have any significant impact on the profit for the year and earnings per share.

(ii) The Company incurred Rs 2.05 lakhs for the year ended 31st March, 2021 towards expenses relating to short-term leases and leases of low-value assets. The total cash outflow for leases is Rs 69.42 Lakhs for the year ended 31st March, 2021, including cash outflow of short-term leases and leases of low-value assets.

(iii) The Company's leases mainly comprise of buildings.

32. Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity shareholders of the company by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit for the year attributable to the equity shareholders of the company by weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:			INR in Lakhs
	31-Mar-21	31-Mar-20	
Profit for the year	(143.93)	(478.04)	
Weighted average number of equity shares in calculating basic EPS (absolute value in number)	3,600,000	3,600,000	
Effect of dilution	-	-	
Weighted average number of equity shares in calculating basic EPS (absolute value in number)	3,600,000	3,600,000	
Earning per share	-	-	
Basic EPS (on nominal value of Rs. 10 per share) Rs./share	(4.00)	(13.28)	
Diluted EPS (on nominal value of Rs. 10 per share) Rs./share	(4.00)	(13.28)	

33. Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Income taxes

The Company is subject to income tax laws as applicable in India. Significant judgment is required in determining provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognises liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

In assessing the realisability of deferred tax assets, management considers whether it is probable, that some portion, or all, of the deferred tax assets will not be realised. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable incomes over the periods in which the deferred tax assets are deductible, management believes that it is probable that the Company will be able to realise the benefits of those deductible differences in future.

AKSH COMPOSITES PRIVATE LIMITED
Notes to financial statements for the year ended March 31,2021

Employee benefit obligations

The cost of the defined benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Further details about gratuity obligations are given in note 29.

Provision for trade

Trade receivables do not carry any interest and are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the ageing of the receivable balances and historical experience adjusted for forward-looking estimates. Individual trade receivables are written off when management deems them not to be collectible.

Contingencies

Management judgement of contingencies is based on the internal assessments and opinion from the consultants for the possible outflow of resources, if any.

34. Leases

Operating Lease :

The Company has entered into a lease agreement. The lease term is for periods of three to five years and renewable at the option of both the parties.

Future minimum rentals payable under non cancellable operating leases are as follows:

39. Financial risk management objectives and policies

The Company's principal financial liabilities, comprise loans and trade payables. The main purpose of these financial liabilities is to raise finance for the Company's operations. The Company has various financial assets such as trade receivables, bank balances and short-term deposits, which arise directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is responsible to ensure that Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. All activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments and derivative financial instruments.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rate primarily relates to the Company's long-term debt obligations with floating interest rates.

The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings with floating interest rates. The Company's policy is to manage its interest cost using a mix of fixed, floating rate borrowings.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

The Company has sales and purchases from outside India. The Company has transactional currency exposures arising from sales and purchases by an operating unit in currencies other than the unit's functional currency. Accordingly, the Company's financial state of affairs can be affected significantly by movements in the USD or any other currency exchange rates.

Interest rate sensitivity		INR in Lakhs	
Descriptions	Increase/Decrease in Basis points	Effect on profit before tax	
31-Mar-21

Base Rate	-50		0.95
31-Mar-20			
Base Rate	+50		0.96
Base Rate	-50		(0.96)

*Prime Lending Rate (PLRs) set by Indian bank in respect of their loans

Foreign currency sensitivity		Changes in USD		Effect on profit before tax	
31-Mar-21					
		+5%			-20.10
		-5%			20.10
31-Mar-20					
		+5%			-19.82
		-5%			19.82

B. Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

AKSH COMPOSITES PRIVATE LIMITED

Notes to financial statements for the year ended March 31, 2021

(i) Trade Receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored by management.

An impairment analysis is performed at each reporting date on an individual basis for major customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

(ii) Financial Instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

C. Liquidity risk

Liquidity risk is the risk that the Company may encounter difficulty in meeting its present and future obligations associated with financial liabilities that are required to be settled by delivering cash or another financial asset. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral obligations. The Company requires funds both for short-term operational needs as well as for long-term investment programs mainly in growth projects. The Company closely monitors its liquidity position and deploys a robust cash management system. It aims to minimise these risks by generating sufficient cash flows from its current operations, which in addition to the available cash and cash equivalents, liquid investments and sufficient committed fund facilities, will provide liquidity.

The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The average credit period taken to settle trade payables is about 30 - 90 days. The other payables are with short-term durations. The carrying amounts are assumed to be reasonable approximation of fair value. The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

	Payable on Demand	0-12 months	1-5 years	> 5 years	INR in Lakhs Total
As at 31 March 2021					
Borrowings	548.24	-	-	-	548.24
Trade payables	-	829.97	-	-	829.97
Other Financial Liabilities	-	156.96	-	-	156.96
	<u>548.24</u>	<u>986.93</u>	<u>-</u>	<u>-</u>	<u>1,535.17</u>
As at 31 March 2020					
Borrowings	780.30	-	-	-	780.30
Trade payables	-	838.95	-	-	838.95
Other Financial Liabilities	-	164.30	-	-	164.30
	<u>780.30</u>	<u>1,003.25</u>	<u>-</u>	<u>-</u>	<u>1,783.55</u>

40. Capital management

The purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio optimum. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables less cash and cash equivalents excluding discontinued operations.

	INR in Lakhs	
Descriptions	31-Mar-21	31-Mar-20
Borrowings	548.24	780.30
Less: Cash and cash equivalents	7.31	0.95
Net debt	540.93	779.35
Total equity	(274.68)	(130.89)
Gearing ratio	-197%	-595%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2021 and 31 March 2020.

AKSH COMPOSITES PRIVATE LIMITED

Notes to financial statements for the year ended March 31, 2021

41. Segment Reporting

The Company operation predominately related to telecom product and accordingly this is the only primary reportable segment as per Ind AS 108 "Operative Segment"

Particular	Rs. In Lakhs	
	31-Mar-21	31-Mar-20
(1) Revenue from external customer		
Within India	574.14	1,294.68
Outside India	237.72	43.92
Total Revenue as per statement of profit and loss	811.86	1,338.50

The revenue information above is based on the locations of the customers

Revenue from customers in India amounted (More than 10% of total turnover) to Rs. 532.58 Lakhs (March 31 2020 Rs. 1,129.31 Lakhs)

Revenue from customers in Outside India amounted (More than 10% of total turnover) to Rs. 177.24 Lakhs (March 31 2020 Rs. Nil)

(2) Non current Operating assets

Within India	1,114.44	1,203.69
Outside India	-	-
Total	1,114.44	1,203.69

42. Code on Social Security, 2020

The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the Company towards Provident Fund and Gratuity. The draft rules for the Code on Social Security, 2020 have been released by the Ministry of Labour and Employment on November 13, 2020. The Company and its Indian subsidiary are in the process of assessing the additional impact on Provident Fund contributions and on Gratuity liability contributions and will complete their evaluation and give appropriate impact in the financial statements in the period in which the rules are notified become effective and the related rules to determine the financial impact are published.

43. Going Concern

The Company has reported net loss of Rs. 143.79 lakhs during the year and also reported accumulated losses of Rs. 634.68 lakhs (including current year) as at 31.03.2021 due to which the entire net worth of the company has been fully eroded. Loss for the year has reported on account of low volume of turnover, and low volume of turnover had many reasons including Covid Pandemic, hence Company was not able to recover its fixed cost. On the basis of current projections, demand in the market and other various factors, Company are expecting to generate profit in the coming year, hence, the Financial Statements has been prepared on Going Concern basis.

44. Balance receivable / payable / advances paid / advances received from parties are subject to confirmation

The Company has sent emails to various parties for confirmations of balances, to which only some parties have responded. Balances of those parties for which confirmations have not been received are subject to confirmation and the management does not expect any significant impact on account of it.

45. Non settlement of foreign currency payable within the time permitted under the RBI Master Direction on Import of Goods and Services

The Company has foreign currency payable of Rs 479.38 lakhs as at 31st March 2021 outstanding for a period of more than twelve months (as period extended to twelve month in case of shipment up to 30th June 20) from the date of Import, being the time permitted under the RBI Master Direction on Import of Goods and Services vide FED Master Direction No 17/2016-17 dated 01st January 2016 (as amended) issued by Reserve Bank of India. The Company is in the process to file an application with Authorized Dealer seeking permission for extension of period for settlement of payable.

46. Non-realisation of export proceeds within time limit prescribed under FEMA

The Company has export receivable of Rs.43.82 lakhs which are outstanding for a period of more than 15 months (as such period extended to fifteen months for export sale up to 30th June, 2020) from the date of Invoice, being the time permitted under Foreign Exchange Management Act (FEMA), or such extended time as permitted by Reserve Bank of India (RBI). The Company is in the process to file an application with RBI for extension of period for realisation of unrealised export proceeds within the prescribed time.

47. Estimation of uncertainties relating to the global health pandemic from COVID-19

The Company has taken into account all the possible impacts of COVID-19 in preparation of these financial statements, including but not limited to its assessment of, liquidity and going concern assumption, recoverable values of its financial and non-financial assets, impact on revenue recognition and impact on leases. The Company has carried out this assessment based on available internal and external sources of information upto the date of approval of these financial statements and believes that the impact of COVID-19 is not material to these financial statements and expects to recover the carrying amount of its assets. The impact of COVID-19 on the financial statements may differ from that estimated as at the date of approval of these financial statements owing to the nature and duration of COVID-19.

48. Previous years figures have been regrouped, rearranged and reclassified to confirm to those of current years figures wherever necessary.

The accompanying notes 1 to 48, are an integral part of the financial statements.
